

Closure là gì?

```
function outerFunc() {  
  let number = 20;  
  let course = 'Javascript nâng cao – ZendVn';  
  
  function innerFunc() {  
    let number2 = 50;  
    let total = number2 + number;  
    return total;  
  }  
  
  return innerFunc;  
}  
  
const func = outerFunc();  
const result = func();
```
